Easy-to-use DocAction II

Users can scan to their PC or Mac computer with the SmartOffice PS188 by simply pressing a button. DocAction II and MacAction II enable users to create 9 different scanning jobs, including the scanning configuration and saving destinations. The easy-to-use interface is very understandable and has full-function settings.

Speedy scan and 50-sheets ADF

The PS188 provides 30 ppm in both grayscale and colour mode, also the 50 sheets automatic document feeders make it efficient for scanning use.
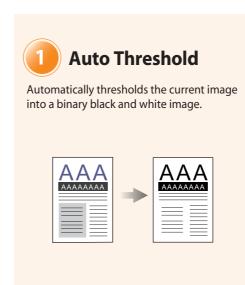

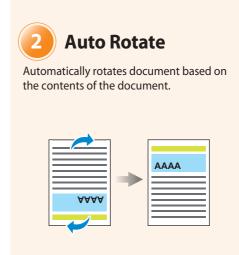

Saving to FTP

The PS188 allows users upload their scanned files to FTP server, FTP is one of the most common forms of file storing method, saving the scanned document directly to FTP helps user sharing their files more convenient and effective.
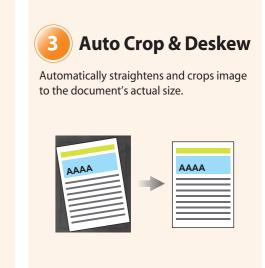

Barcode Scan

The PS188 give the user the most convenient way to scan with barcode document, users can set the barcode number as the file name, which allows you to manage file more convenient and efficient, you can search the important document or shipping letter without open the file one-by-one.
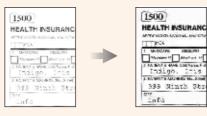

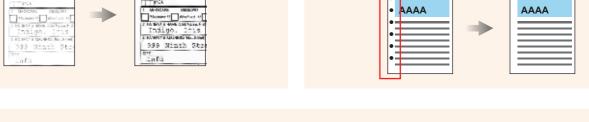

1 Auto Threshold

Automatically thresholds the current image into a binary black and white image.

2 Auto Rotate

Automatically rotates document based on the contents of the document.

3 Auto Crop & Deskew

Automatically straightens and crops image to the document's actual size.

4 Character enhancement

Choose this function can increase the contrast, especially on character, in order to clarify the words.

5 Punch hole removal

Documents that are on file usually have punch holes for the easier binding purpose. When scanning these type of files, the scanner will detect the hole leaving black dot over places where the punch hole is in place on the digitalized document.

6 Blank Page Removal   Automatically removes blank pages without manual editing.

Input documents						Delete blank pages			
Document 1	Document 1	Document 2	Document 2	Document 3	Document 3	Document 1	Document 1	Document 2	Document 3
